

Recent Doctoral Theses (Awarded/Submitted/Ongoing) - Last 5 Years

Name of the Scholar	Title of Thesis	Guide(s)	Status
Bishnu Mohan Jha	Effect of ECM process variables on surface produced and mechanical geometry	Dr. Amitava Mandal	Awarded (February 2017)
Shamama Anwar	Intelligent algorithms for vision-based human action recognition	Dr. G. Rajamohan	Awarded (October 2017)
Krishna Kumar Verma	Computer-aided design of freeform surfaces using sparse and dense measurement data	Dr. G. Rajamohan Dr. A. Mandal	Thesis Submitted
Azhar Equbal	An investigation on the feasibility of FDM process in EDM electrode manufacturing	Dr. A. K. Sood	Thesis Submitted
Md. Razaullah Khan	Investigation of weldment of ferritic stainless steel AISI430	Dr. A. K. Pathak	Ongoing
Umashankar Das	Effect of process parameters on mechanical properties of friction-stir welded joints of two dissimilar Aluminium alloys	Dr. Vijay Toppo	Ongoing
