

THE NIFFT ENSEMBLES

The NIFFT Ensemble is the sole music club of the prestigious institute, National Institute of Foundry and Forge Technology, a centrally funded government technical institute under MHRD.

This music club was formed by a group of college students who had deep love for music of all genres. The specialty of the club was that it included students versatile in different fields of music along with sound knowledge of different instruments.

This musical band hires fresh enthusiasts every year through auditions and it also provides a platform for those interested in learning. Our music club has a separate music room in the Gymkhana which is well-equipped with all the latest instruments that include microphones, amplifiers, acoustic and electric guitars, percussion instruments, keyboard and what not! Regular practice sessions is a characteristic feature of this club because every student belonging to this club is too dedicated in improving themselves.

Our club has won many achievements in the past and will continue the legacy in future as well. It has performed in the prestigious Spring Fest of IIT Kharagpur at the lakeside dreams winning award there. The club has had many shows outside and inside the college. It has performed for the benefit of our college's NGO, at battle of bands in various college fests winning titles there.

The best part is the club's environment. It has a very friendly, sincere and supportive environment where everyone is helping the other to improve. The club is regularly funded by the college to buy new instruments and be updated. Our music club has a special facebook page which always posts update about our performances, knowledge about musical field apart from other important information. If you are a part of this club, life is too beautiful at NIFFT.
